

TEAM SAFETY

Dear Shop Owner/Manager,

*Attached is a copy of Team Safety's **CollisionCare®** DRP Quick Compliance Program. This program is a cost effective solution to the Safety and Pollution Prevention training element required by many insurance carriers. It will enable your shop to gain compliance without losing valuable production time or having to pay your employees after hours. The training DVD contains several modules, each approximately 10 to 15 minutes in duration, and may be viewed even during the lunch hour.*

The content of DVD is current and according to your State and Federal OSHA and EPA Regulations. It is specific to the Collision Industry, referencing product and equipment information your employees are familiar with. Each employee will complete an evaluation after viewing the DVD.

After the three modules are completed, whether in one session or in three, you will fax the training log to Team Safety. A Certificate of Completion is immediately emailed to you and the Insurance Carriers you request.

*This program is a very condensed version of Team Safety's comprehensive **CollisionCare®** Compliance Program, and is designed for DRP Compliance.*

Contact us at CollisionCare@teamsafety.us for more information on either program. To sign up today, complete the contact information on the attached sheet and fax to 1-800-925-4294.

Best Regards,

Colette Bruce
